Profile

Detail-oriented and creative Front-End Developer with 3+ years of hands-on experience in crafting visually appealing and responsive web applications. Proficient in HTML, CSS3, JavaScript, ReactJS, Typescript, Tailwind, and Bootstrap. Adept at translating design concepts into efficient, user-friendly interfaces.

Professional Experience

Front-end Developer | Logiflex Tech

2022 – present | Lagos, Nigeria

- Spearheaded the implementation of visually striking and responsive user interfaces in collaboration with design and backend teams, using HTML, CSS3, Bootstrap, and JavaScript.
- Developed a responsive and user-friendly offline P2P pharmaceutical retail app for pharmacies to easily sell products and keep track of products sold. (REACTJS)
- Elevated user experiences by developing and maintaining sophisticated ReactJS components.
- Pioneered the adoption of Tailwind and Bootstrap, streamlining the styling process and ensuring a consistent and polished application aesthetic.
- Design and development of a responsive and user-friendly ordering application (P2P), inventory application, and accounting application. (REACTJS)
- Conducted regular code reviews to ensure code quality and adherence to best practices.
- Converted a ReactJS web application into a mobile application utilizing Capacitor JS.

Front-end Developer (Intern) | Netop Business Consulting Limited

2021 – 2022 | Lagos, Nigeria

- Worked closely with the development team to ensure a smooth transition from web to mobile, gaining valuable hands-on experience in web application development.
- Contributed significantly to troubleshooting and bug-fixing efforts during testing phases, showcasing dedication and problem-solving acumen.
- Engaged clients in a collaborative development process.
- Built an e-commerce website where I designed, built, and maintained code using Javascript, HTML, and CSS with LocalStorage to store the data and publish it using Netlify.
- Applied mastery of HTML and CSS3 to translate intricate designs into pixel-perfect, aesthetically pleasing interfaces.
